PVC DOTTED COTTON GLOVES

Model No: 2455WDD

The 2455WDD Cotton Glove is a knitted cotton work glove designed to provide comfortable hand coverage and enhanced grip during general handling and work activities. The glove features a white knitted cotton construction with blue PVC grip dots applied to both the palm and back of the hand. The two-sided PVC dot pattern provides improved grip on handling surfaces while maintaining the flexibility and natural movement of the hand. Its full-finger construction provides continuous coverage across the fingers and thumb, making it suitable for a variety of general-purpose work tasks.

The glove features a knitted elasticized cuff that provides a secure and comfortable fit around the wrist while helping keep the glove properly positioned during use. The combination of cotton knitted construction and two-sided PVC grip dots offers a practical balance of flexibility, comfort, and grip. Applications include construction, auto repair, gardening, mechanical tasks, general material handling, and oil & gas industry work, where improved grip and comfortable hand coverage are required.

FEATURES & SPECS

Product Type	PVC Dotted Cotton Gloves
Material	PVC & Cotton Yarn
Glove Length	22 cm
Color	Bleached White • Blue PVC Dots
Trademark	BSI
Weight	60 G / Pair
Packaging	12 Pairs/PP Bag • 250 Pairs/Ctn
